Art Unit: 3662

1. The drawing corrections filed September 12, 2003 have been approved.
2. The remarks filed September 12, 2003 are acknowledged.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5, 10-12, and 18-20, are rejected under 35 U.S.C. 102(e) as being anticipated by Brown et al.

Brown et al teaches the claimed array antenna system method and structure including: first antenna subarray (Figure 2), second antenna subarray (Figure 2), combination line network (Figure 3), phase shifting device (44) for generating a phase displacement between the first and second output signals before they are fed to the antenna subarrays, apparatus (22, column 2, line 67 to column 3, line 5) for compensating the phase displacement in the beam path of the antenna radiation emitted by the first and second antenna arrays.

Brown et al teaches covering the antenna subarrays by dielectric layers of different dielectric constants (column 2, line 67 to column 3, line 5).

4. Claims 6-9, 13-17, 21, and 22, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 23-29 are allowed.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
